Between January and February 2016, Food and Non-Alcoholic Drinks' Index decreased by 0.43 per cent. This resulted from notable decreases in prices of key food items which slightly outweighed the increases. The Alcoholic Beverages, Tobacco & Narcotics index continued to remain higher than in the same month of 2015 mainly due to higher Excise duty levied on beer cigarettes and other products within the division as from December 2015.

Over the same review period, Housing, Water, Electricity, Gas and Other Fuels' Index, decreased by 1.81 per cent. The main contributors to the decline were decreases in prices of kerosene and cooking gas, as reflected in Table 3. Notable however, electricity costs remained the same as in January 2016.

The Transport Index decreased by 1.62 per cent in February 2016 compared to the previous month mainly due to reduced costs of petrol and diesel.
