Between May and June 2015, Food and Non-Alcoholic Drinks' Index decreased by 0.1 per cent. This lower month to month food inflation was as a result of observed decreases in food prices which outweighed the increases as indicated in Table 3 above.

Over the same period, Housing, Water, Electricity, Gas and Other Fuels' Index, increased by 0.37 per cent mainly due to cost increases in respect of house rents, cooking fuels and other utilities. There were notable decreases in the fuel cost adjustment charges per Kwh of electricity. However, these were balanced out by increases in foreign exchange charges hence, the cost of electricity remained as in the previous month.

During the same review period, the Transport Index increased by 0.86 per cent mainly due to notable rises in the cost of petrol and diesel.
